

PlaceChangers

Understand places. Engage residents. All in one place.

PlaceChangers is a cost effective community engagement and spatial planning tool that will provide you with new insights into how the community views your public places and how accessible your facilities are.

PlaceChangers is an ideal tool for gaining feedback on reserve management plans, concept plans and masterplans. It provides the opportunity for the users to comment on specific parks and facilities directly on a digital plan.

If you want to analyse walkability for sports facilities, playgrounds or other community facilities, PlaceChangers can identify gaps in provision based on user defined walking and driving times, all without any need for GIS skills or support.

Better community consultation starts at just \$1,600 and spatial analysis for just \$2,520.
